Mercury Plastics has built a reputation for innovative plastic solutions and our extensive post extrusion operations play a major role. We extrude a wide variety of thermoplastics into complex profiles. We process rigid and flexible PVC, ABS, EVA, polybutylene, polyethylene, santoprene, polysulfone, nylon and dual-durometer parts. Our exceptional secondary operations include forming, belling, drilling, sawing, punching, notching and insert molding. We also offer air core molding and compression molding.

(Instruments For The Precise Measurement Of Flow, Pressure & Level
Including Differential Pressure Gages, Pressure Calibrators, Manometers
& Pitot Tubes. Product Line Includes Primary Elements & Indicators
For Process Measurements, Flow Systems Used For Both Process
Test & Calibration; & Smart Instruments For Calibration & Test Applications.
Products Are Used In Applications As Diverse As Chemical
Processing, Oil Drilling Rigs, Respiratory Therapy & Laboratory Experiments)

---	--------------

Meritor Automotive, is a global supplier of components and systems for passenger cars, light trucks, heavy trucks, tractors, trailers, buses, coaches, off-highway and other specialty vehicles.

Established on October 1st 1997, as a stand-alone company, Meritor joins the Fortune 500 list of companies and has also been named to the Standard & Poor Mid Cap 400 Index. It is now traded on the New York Stock Exchange (NYSE: MRA).

As a new independent company, Meritor has the enthusiasm of a start-up venture backed by a long-standing reputation of quality products and service to the automotive industry with its 90 year heritage of Rockwell technology.

With headquarters in Troy, Michigan, USA, the company employs more than 16,000 people in some 22 countries and has 60 manufacturing, sales and research facilities.

In 1998, worldwide sales totalled \$3.8 billion, from the two operating business units: Heavy Vehicle Systems and Light Vehicle Systems.

With its global coverage, strong tradition of customer service, advanced product technology and dedication to quality, Meritor is exceptionally well-positioned to compete effectively and to serve its customers worldwide.

Merkel Freudenberg Fluidtechnic Inc.

We offer a combination of the latest high performance materials, improved sealing technology designs and a complete sealing systems approach developed over nearly 150 years of service to the industry. No other seal manufacturer has brought together all these elements as we have in order to provide our customers with unparalleled service, quality and sealing performance.

We offer a complete range of sealing materials including urethanes, PTFE compounds, NBR, Viton, phenolic, and many others. Our lab tested and field proven designs include dirt wipers, rod seals, piston seals, guide bands, rotary seals and more. In addition technical support is readily available to provide an engineered solution for your application.

From mobile hydraulics to steel mills to injection molding and many other applications, Merkel Freudenberg Fluidtechnic Inc. has "the right answer" to your sealing requirements. For additional information, contact us at:

High Quality

STAINLESS STEEL PRODUCTS

Metal Master Fabricates Custom & Standard Stainless Steel Products For A Broad Range Of Industries & Applications.

Complete design, prototyping, and production services from concept through final installation are provided by your assigned project manager. All work carries our full warranty.

Products: Cabinets • Workstations • Desks • Exhaust & Fume Hoods • Tables • Sinks, Tubs, & Vats • Serving Lines • Racks & Carts • Counters & Tops • Benches • Shelves • Lighting • Decorative & Ornamental Works • Repairs & Replacements

Customers: Industrial Plants, Laboratories, "Clean Room" Environments • Commercial & Institutional Kitchens • Hospitals & Clinics • Food Processing Plants • Process Industries • Engineers & Builders

"Crafting Stainless Steel Products Since 1974"

METALCRAFT, INC.

- Metalcraft, Inc. has over 30 years experience with fire extin-
guishing technology
- Metalcraft offers fire protection equipment for marine, commer-
cial, military applications
- Metalcraft offers auto-racing fire extinguishing systems for
NASCAR, NHRA and other racing associations
- Metalcraft's marine division, Sea-Fire, offers a complete line of
automatic fire extinguishing systems using FM-2000, an EPA
accepted, ozone responsible extinguishing agent. Other products
available:
 - Dry chemical fire extinguishers
 - FM-200 extinguishers and systems
 - Carbon dioxide extinguishers
 - Marine fire alarm systems

METCAR[®]

**We Meet The
CHALLENGE!**

Oil-free, self-lubricating mechanical components will solve many of your difficult design problems.

METCAR, the trade name for a unique family of oil-free, self-lubricating materials manufactured by Metallized Carbon Corporation can meet or exceed your most stringent requirements.

METCAR grades include a broad range of solid carbon-graphite and electro-graphite materials which are supplied plain, impregnated with metals, or impregnated with synthetic resins. Optimum grades for particular applications are produced by adjusting raw materials and processing conditions.

Metallized Carbon Corporation supplies completely finished components or Metcar materials for customer fabrication.

We also fit or assemble Metcar components into metallic supports or holders to user specifications. Where standardization is possible, as with popular bearings and bearing assemblies, we maintain a large inventory of finished components or assemblies to provide customers with fast delivery at reduced cost.

Our self-lubricating bearings are being used successfully with the following types of equipment:

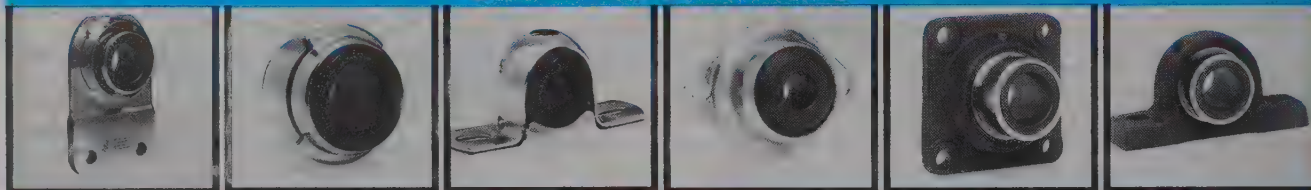

- Pump • Meter • Textile finishing & weaving • Conveyor • Dryer
- Furnace • Oven • Food processing • Pulp & Paper • Chemical
- Sewage treatment • Water treatment • Plating • Printing • Drug
- Petroleum • Weighing • Electrical • Pollution control • Ventilating

MetoKote

The Leader in Coating Application Technologies

Ask About Our Innovative Outsourcing Solutions

Electrocoating

Powder Coating

Liquid Painting

Specialty Coating

Your company is unique—therefore you deserve a specialized coating support system. MetoKote provides this support in the form of equipment, facilities and services.

Here's how MetoKote makes it more beneficial for you to outsource your coating services:

Coating Services at an Existing MetoKote Plant

MetoKote covers a large geographic area with our **existing coating service centers** in the midwest and southeast United States. We are also serving customers globally with operations in the United Kingdom and Canada.

Customized Coating Lines

We can build a customized coating line **within one of our plants** to service your coating needs.

A New Coating Service Center Near You

We can build a **non-exclusive plant** in your area.

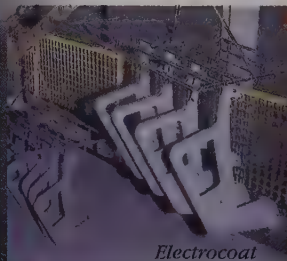

On-Site Coating Service Facilities

We can design, build, install and operate an exclusive coating system **inside your plant** to service your coating needs.

Call us before you install your own system!

Powder Coat

Electrocoat

Liquid Paint

Pretreatment

MetoKote

Facilities located throughout the U.S. and abroad.

Call us for the location nearest you!

(Based On Blueprint & Description Of The Application. Design Appropriate Ceramic Composition. Over 40 Refractory & Porcelain Compositions. Will Formulate The Optimal Body Composition. Refractories Are Designed To Meet Performance Requirements Such As: High Temperature Exposure, Resistance To Thermal Shock, Low Erosion, Resistance To Wetting. Refractory Product Uses Include: Investment Casting Pouring Cups, Heating Element Supports, Lining Lining Anchors & Resistor Cores. Porcelains Can Withstand Operating Environments Which Require: Low Moisture Absorption, Electrical Insulation, High Strength, Wear Resistance. Porcelains Have Been Specified For Many Products Including: Electric Range Bushings, Resistor Bases, Meter Sockets, Lighting Balast Housings, & Electrical Controls. Standard Tolerances Are Plus/Minus 1 1/2%, But No Less Than Plus/Minus .010 Inches, With A Minimum Of .020 Inches For The Thickness Dimensions. Special Tolerances Are Available Upon Request. Delivery Via Truck, Rail, Air Or Ocean Freight)

Micro Industries delivers electronics solutions with your product's future in mind.

As fast as technology changes, you need electronics solutions that evolve with your product.

Micro Industries is where you'll find them.

We combine nearly two decades of engineering design and contract manufacturing experience to provide electronics solutions that adapt to emerging technologies and changing OEM market requirements. Which means our solutions not only protect your initial investment, they support your product through its entire

lifecycle—and its next generation.

What's more, we've developed flexible manufacturing techniques to help get your product to market faster and more cost-effectively. Plus, we carefully craft your electronics using advanced surface-mount and automated conventional technologies to ensure reliability even in the harshest industrial conditions. And thanks to our non-polluting processes, we do so without harming the environment.

Whether you need integrated design and manufacturing services

or PC-compatible products, get the solutions that offer the quality you need today and the flexibility you need for tomorrow.

Call Micro Industries today for more information, or to schedule a personal sales visit.

(Precision Machined Components From .020" To 1.250" In Diameter,
Utilizing Titanium, Stainless Steel & Precious Metals; Also Nickel Al-
loys, Brass Aluminum & Plastic. Minimum Quantity Of Fifty. Special-
ties Include CNC Swiss Type Mill/Turning 2/5/6 Axis; Conventional
Turning & Milling; CNC 5 Axis Machining Center; Plunge Type EDM;
Grinding; Micro Hole Drilling; Deburring; Grit Blasting, & Passivation.
Specializing In Machining Components For Stringent Class III Medi-
cal Devices, Including Pacemaker, Orthopedic, Neurological, Urologi-
cal, Angiographic, Dental, Surgical, Cardiac, Ophthalmic & Diagnostic
Applications)

Micro Mo[®]

The Original Miniature Component Line
of System Faulhaber[®] Minimotor[™]
and Micro Mo[®] Products

Over 35 years of engineering
and applications experience
in your field of interest...

If you specify components for: Features:

- Aircraft & Avionics.
- Medical Equipment.
- Robotics & Automation.
- Pumps & Industrial Hygiene.
- Instruments.
- Complete Servo systems.
- Positioning Equipment.
- Portable, remote, & battery operated equipment.

...you should be using
Micro Mo[®] brand products.

Size: 3" - 4-3/4" diameters (8 mm - 120 mm).
Reliability (with efficiencies of up to 86% in battery operated devices).
Very low electrical and mechanical noise.
Low starting voltage and current consumption.
No cogging, even at low speeds.

Options:

Hi-temperature versions (for autoclaving and sterile environments).
Model ranges from .8 to 48V DC.
Double shafts. (thru-shafts)
Sintered or preloaded ball bearings.
Special commutations for servo applications or extended lifetime.
Slip-on and screw-on gearheads, encoders, tachs, and tachogenerators.

Personalized Service:

- "Guaranteed Stock Program"[™] for engineering samples. 48 hour sample shipment.
- "On-Line Inventory" arrangements for your particular production requirements.
- Replacement parts available in 22 countries worldwide for exporting OEMs.
- Specialty lubricants, shafts, adapters, and sub-assemblies.
- Specials & custom work invited.
- Value-added assemblies (welded pulleys & pinions, harness & cable-making, etc.)

**Best
Your Flow
Measurement
Solution**

Get the world's most accurate and reliable flow measurement solutions with Micro Motion Coriolis flowmeters. Micro Motion flowmeters give you precise mass flow, density and temperature measurement that is virtually maintenance-free.

Micro Motion Coriolis flowmeters offer a wide range of applications

- ▶ Direct mass & density
- ▶ Gas
- ▶ Viscosity
- ▶ High pressure
- ▶ High temperature
- ▶ Sanitary
- ▶ Custody transfer
- ▶ Batch control
- ▶ Net solids
- ▶ Net oil
- ▶ % HFCS
- ▶ °Brix and more

 (Precision Machining Of Metal & Plastic Components For Medical,
 Implants, Instruments, Aerospace, & Devices For Space & Communi-
 cation Systems. Services Include Swiss Machining, CNC Turning, Mill-
 ing, Micro-Hole Drilling, Fine Deburring, Polishing, Bead Blasting,
 Extrude Honing & Other Finishing Operations With Tolerances To
 Plus Or Minus .0001. Specializing In Miniature Products. CNC Lathes
 With Capability Up To .75 In Diameter. ISO 9002 Compliance. Pro-
 duction Include Prototyping & Large Quantity Run. Products Include
 Miniature Parts Like Dental Implants, Bone Anchors, Screws & Pins,
 Electrodes, Poppet, Spacers, Nozzles, Catheter Tips, Microwave Parts,
 Fiber-Optics Connector Components)

MICRO-WELD QUALITY WELDING SOLUTIONS SINCE 1928

DISCOVER THE VERSATILITY OF OUR BUTT, FLASH AND CUSTOM WELDERS

Since 1928, Micro-Weld Welders have served manufacturers of ferrous and non-ferrous wire and rod products with high quality, cost-effective butt, flash and custom welders.

Micro-Weld Welders are engineered to provide years of dependable service. They feature rugged construction, heavy-duty mechanical and electrical components, easy to operate controls and low maintenance costs.

TUBING

Our flagship division, ALL-TUBE, specializes in supplying small diameter stainless steel and alloy tubing. In house redraw, annealing and centerless grinding capabilities combined with our large inventory enhance our ability to ship stock and unusual non-stock tubing requests. In house sizes range from .004" to 1" in diameter. It all adds up to the shortest lead times in the business. That's us!

ACCESSORIES

We are ready to accommodate your tubing accessories and related products' needs, with our EngineersEXPRESS manufacturing and distribution division. You can easily purchase everything from fittings, miniature valves, dispensing equipment and unique small tools suitable for numerous everyday industrial applications in a variety of industries. Although we pride ourselves on our wide assortment of high quality products, if you require something unique and can't find it — let us do the searching for you.

In Stock: 5,000 sizes
5,000,000 feet

SMALL DIAMETER TUBING: STOCK - STAINLESS STEEL

- Hypodermic
- Medical Quality (tight ID tolerances)
- Pipe
- Fractional
- Metric
- Odd-Lot Sale Items

Short Lead Times

SMALL DIAMETER TUBING: CUSTOM - ALL METALS

- Round
- Shaped
- Composites
- Drawing
- Grinding
- Straightening
- Cleaning/Annealing

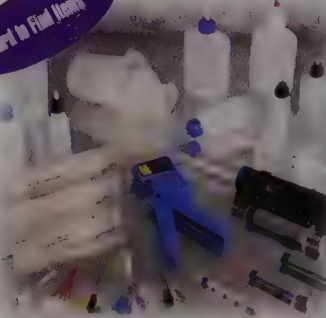

2,500+ Combinations
Available

MINIATURE FITTINGS & VALVES: STOCK/CUSTOM - METAL & PLASTIC

- Luers
- Barbed
- Threaded
- Pipe
- Miniature Ball Valves
- Manufactured to ISO 591/ 1,2 Standards
- Manufactured to ANSI/HIMA Standards

Hard to Find Items

TUBING ACCESSORIES & DISPENSING PRODUCTS

- Syringes
- Needles
- Pumps
- Tube and Hose Fittings
- Saws/Blades
- Hand Held Benders
- Hones/Brushes
- Many more

PROTOTYPING

Tubesmiths convert tube and other metals into customer designed components and assemblies in small quantities. Whether you need tubing cut to length or complex miniature tubular components, we can provide prototype quantities with production tooling. Our services include: conventional and CNC machining, swaging, flaring, cutting, deburring, welding, EDM, laser services, electrochemical processes and finishing. No matter how elaborate or extraordinary the requirements, our Tubesmiths Division is ready to answer the challenge.

camm

PRODUCTION

In our continuing efforts to offer more of what our customers need, there's our CAMM Division. This fully automated production shop lets you fulfill all of your design application requirements — regardless of their difficulty. Boasting outstanding accuracy and control, the sophisticated automated technology of our equipment makes us your specialists in cost-effectively creating hard-to-produce parts. CAMM has the ability to work with most machinable metals and plastics.

BURR-FREE CUTTING & DEBURRING: TUBING & SOLIDS

- Electrochemical
 - Abrasive
 - Laser
- Cold Sawing
 - EDM
- Cleaning
- Plastic, Glass and Metal Including Sheet

MICRO-MACHINING: METAL & PLASTIC

- Turning
- Milling
- Drilling
- Honing
- Bending
- Flaring
- Swaging
- Laser Marking
- Cleaning

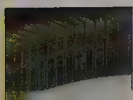

TUBULAR COMPONENTS: METAL & PLASTIC

- End Forming
- Rotary Swaging
- 100% Burr Free Holes & Slots
 - Closures
 - Bending
 - Cleaning
 - Annealing

COMPLETE ASSEMBLIES: METAL & PLASTIC

- Welding - Laser
- Welding-MIG
- Welding-TIG
- Brazing Induction
- Cleaning

(Custom Coater Laminator & Converter, Coatings & Laminations In-
clude: Solvent Based, Water Based, Pressure Sensitive, ESD, & Con-
ductive, Heat Seal, Flame Retardant, Special Polymer & More. Coating
Thickness Range From .000125" To .006". Typical Webs Work In-
clude: Films, Papers, Non-Wovens, Foams & Fabrics. Web Width Ca-
pabilities Up To 62", Ranging In Thickness Capability From .0003" To
.250". Lab Facilities, Trail Runs, Development Services. Industrial Ad-
hesive Division Features A Full Line Of Tapes, Labels Stocks & Over-
laminating Films)
(Ex.) (C.F.O.) D. Silverstein; (Pres.) M. Silverstein

Microsoft®

SOLUTIONS FOR INDUSTRY

Your online resource for locating powerful line-of-business software solutions for industry built on Microsoft® BackOffice technology.

What we provide:

Manufacturing Solutions for Line-of-Business Customers

Learn about innovative manufacturing solutions created by leading ISV's. Case studies, product guides and the industry solutions directory will allow you to research 3rd party business applications built on Microsoft® technologies.

For Developers

Check out Microsoft® technologies geared for manufacturing applications. Partner with Microsoft® to build powerful business applications.

Manufacturing Press Room

Read the latest on manufacturing products, services, and strategies. For fast background, press releases and industry contacts.

Manufacturing Resources

Find the supporting technical and business information you need to drive your manufacturing strategy. Supporting materials, articles and exclusive editorial features.

Events

Stay up to speed on the latest technology with worldwide and regional events. Register for seminars, solution briefings in your area.

Architecture Initiatives

Industry specific initiatives to 'establish open, standard formats for software technologies.

Complete Application Information by Industry

Construction	Hospitality	Real Estate
Education	Insurance	Retail
Energy	Justice/Public Safety	Supply Chain
Engineering	Legal	Telecommunications
Financial Services	Manufacturing	Utilities
Healthcare	Media & Publishing	

Enterprise Applications

- Full Prototype & Sample Capabilities
- Optical Measurement System
- Quality Control & CAD Tooling Design

Our associates work in "teams" in special "cell" areas of our 252,000 square-foot facility. This total manufacturing system "under one roof" means greater efficiencies and savings for our customers...and complete quality control of the production process.

At Mid-States, quality comes first and foremost in everything we do...from the associates we hire...to the facilities and equipment we maintain...to how we manufacture what we know are the best extruded aluminum products in the market today. Our consistent high quality has been rewarded with the coveted ISO 9002 Certification.

Mid-States Aluminum Corp. specializes in extruding and fabricating intricate shapes to close tolerances for virtually any application, including medical, automotive, office automation, office furniture, electronics, communication and manufacturing safety devices.

Our real niche is our ability to provide extensive Design and Engineering Support, Fabrication, Machining, Finishing and Sub-Assembly Services and Anodizing within a complete Cellular Manufacturing work flow...

Earning Mid-States its reputation as a premier single-source supplier.

Depend on Mid-West Spring and Stamping

...for competitive pricing

Dana Corporation's Gresen Hydraulics Division of the Off-Highway Components Group consolidated its springs and stampings purchases to one supplier—Mid-West Spring. The parts are components of hydraulic valves that go into off-highway mobile equipment, like the earth moving equipment shown above.

Why is Mid-West Spring the sole supplier for this group? Purchasing Manager Brian Fry gives a few reasons: "economics, product quality, delivery performance, and the willingness of the people at Mid-West Spring to work with us to accomplish our goals."

CUSTOM MADE HINGES

Continuous Hinges • Custom Fabrication Butt, Spring & Slip Joint Hinges

We are very proud of our ability to utilize our equipment and talent to the customer's individual needs. We always look for a way to take a standard hinge and fabricate it to the customer's specification. However, a great deal of our work is in custom fabrication.

Our facility is ideally located in the industrial Akron/Canton area, approximately one hour south of Cleveland. All carriers have easy access to our facility and local, regional, and international airports are conveniently close.

If you have any questions, please contact us. We are here to assist you in planning or designing the best product for your application.

Call 1-800-443-1190

Midori Precisions Co., Ltd., Tokyo, Japan, originated in 1952 as a manufacturer of displacement transducers. Using wirewound potentiometer technology, these early devices found their first application in the precision instrumentation market.

By 1970, Midori technology expanded to include the ultra-precision conductive plastic Green Pot produce line. During the 1980s, Midori pioneered still another technology, the contactless magneto resistive potentiometer, know throughout the world by the "Blue Pot" tradename.

For over 40 years, Midori **Blue and Green Pot** variations and product performance have been unmatched in the industry. Today, our products encompass a wide range of rotary and linear position sensors, linear displacement transducers and inclinometers.

Midori is continuously creating state of the art products in response to ever changing customer needs. Midori offers to world market precision products essential to industry automation, instrumentation, medical-equipment, off-road machinery, and printing equipment. Established Midori customers know a tradition of quality and service second to none in industry.

Midori America Corporation was originated in 1988, as a wholly owned subsidiary of Midori Precisions Co., Ltd., for the purpose of serving the North American market. **Midori America maintains a complete inventory of Midori standard products and is professionally staffed to provide engineering and technical support for our customers.**

MAXIMUM Solutions.

**North America's
Largest Manufacturer
of Precision Machined
Interconnect
Components**

Mill-Max's state-of-the-art manufacturing facility and dedication to screw machine technology can produce over 100 million interconnect components, IC sockets and connectors each week, all the way from raw materials to finished products; all under one roof.

More About the L.C. Miller Company...

The L.C. Miller Co. is a highly diversified, high technology company serving scientific, government and industrial organizations throughout the world.

Since its inception in 1956, the company has been the bellwether in the development and use of the water-cooled coaxial cable and the Miller Re-Coil™, a quick change device for induction work coils. Both of these proprietary products have become standards in the induction heating industry. Their use improves the versatility and production capabilities of these systems.

In addition to the above products, the company offers services on heat treating, high temperature brazing, soft soldering, electric discharge and ultrasonic machining.

High quality and on-time deliveries are consistent with the L.C. Miller Company philosophy of providing the best possible products and services at competitive prices.

Come to the Source for High Purity Laboratory Water

As the world leader in high-purity water systems for the laboratory with more than three decades of experience, a large database of successful applications, and 25,000 installations worldwide, Millipore Corporation has set the standard for the water purification industry.

Millipore offers a complete line of laboratory water systems that incorporate multiple technologies, such as:

- Reverse Osmosis (RO)
- Electrodeionization* (EDI)
- Ultraviolet (UV) Oxidation
- Microporous Filtration (MF)
- Ultrafiltration (UF)
- Ultrapure Deionization (DI)

*Millipore's patented technology

Our new systems [see our ad in the *Water Filtration and Purification Section*] incorporate many new features which offer tangible benefits for the laboratory professional. Water from Millipore's systems meets or exceeds standards set by the American Society for Testing and Materials (ASTM), the College of American Pathologists (CAP), and the National Committee for Clinical Laboratory Standards (NCCLS).

All of our water purification systems are backed by knowledgeable technical experts and serviced by a dedicated staff of professionally trained Customer Care Engineers.

**For more information, call toll-free 1-800-MILLIPORE

SEE OUR CATALOG IN CATALOG FILE SECTION

LOW COST PRECISION METAL BELLOWS & ASSEMBLIES OFF-THE-SHELF DELIVERY

USED IN:

- Vacuum Equipment
- Cryogenic Equipment
- Valves
- Liquid or Vapor Lines

APPLICATIONS:

- Sensors
- Actuators
- Seals
- Switches
- Regulators

FEATURES:

- High Pressure Capabilities
- Low Spring Rates

MATERIALS AVAILABLE:

- Brass • Stainless Steel
- Nickel • Beryllium Copper
- Monel • Inconel Alloys
- Also Titanium, Tantalum, Columbium 1% Zirconium, Hastelloy X, Haynes 25, and other exotic alloys

OFF THE SHELF SIZES:

- From .099" ID to 1.500" OD by 2" long max.

ASSEMBLIES & CUSTOM DESIGNS:

Bellows can be supplied welded, brazed or soldered to customer specified end fittings as required. Special bellows configurations on request.

SEE OUR CATALOG IN THOMAS REGISTER
AND ON THE INTERNET: http://www.mini-flex.thomasregister.com

MINI-CIRCUITS®

THE SOLID SOURCE

signal processing components dc to 20GHz

MIXERS • POWER SPLITTERS/COMBINERS • AMPLIFIERS • ATTENUATORS • FILTERS
DIRECTIONAL COUPLERS • LIMITERS • PHASE SHIFTERS • FREQUENCY DOUBLERS
IMPEDANCE PADS • SWITCHES • TERMINATIONS • PHASE DETECTORS • RF CHOKES
I&Q MODULATORS/DEMODULATORS • OSCILLATORS (VCO's) TRANSFORMERS • BIAS TEES

 **Mini-Circuits®**

MINI-CIRCUITS...A COMMITMENT OF TOTAL SUPPORT TO OUR CUSTOMERS

In today's competitive, evolving wireless and digital communication markets, Mini-Circuits provides that extra edge! As a leader recognized worldwide in RF/IF and microwave component design and manufacturing, Mini-Circuits offers total technical support from initial design to full scale production to satisfy or exceed your specific requirements. Mini-Circuits regards demanding quality standards, aggressive pricing, and on-time delivery as corporate commitments. In terms of quality, our goal is to maintain statistical process control with 4.5 sigma performance repeatability on most models and a 5 year Ultra-Rel[®] guarantee on all mixers. Worldwide manufacturing and distribution facilities enable Mini-Circuits to supply large quantity production needs on short notice.

Our Quality Policy is to provide products and services to our internal and external customers that will:

- Meet Stated Requirements
- Exceed Expectations
- Continuously Be Improved

Environmental Policy: Mini-Circuits has made a commitment to an Environmental Management System which complies with the International Standard, ISO 14001, and provides the structure for implementing and supporting our Environmental Policy. The Environmental Management System is considered an integral part of our occupational Health and Safety activities. We strive to identify processes, materials, and products that contribute to pollution of the environment, with the goal of eliminating or reducing pollutants where feasible. The Environmental Management System and its environmental performance goals will be monitored through internal audits and periodic reviews by management. It is our intent to continue to be an environmentally responsible electronics manufacturer as well as a good neighbor to the communities in which we do business.

PRODUCTS AND SERVICES

Widest Selection Of Components: With 18 product lines totaling more than 1,000 off-the-shelf catalog items and 5,000 custom models, Mini-Circuits offers the world's widest variety of signal processing components that cover the frequency range from DC to 20GHz. Unique Mini-Circuits products incorporating patented Blue Cell[™] technology and patent pending "Innovative Technology" give you the competitive edge by providing ultra-low profile, tight performance repeatability, and low cost.

1 Week Turnaround Time...Guaranteed! As stated in our shipment guarantee, all catalog products in smaller quantities will be processed and shipped worldwide within one week after the order is received, or we will deduct 1% off the price for each day we're late.

ISO 9001 Certification And Registration: Mini-Circuits devotion to quality has been enhanced with ISO 9001 certification and registration. It helps insure customer satisfaction through a process of planning and prevention, and promotes our ability to support customer needs today and in the future. Mini-Circuits ISO 9001 auditing, certification, and registration process was completed by KEMA Registered Quality, Incorporated of Chalfont, PA. KEMA is affiliated with N.V. KEMA in the Netherlands, a member of the European Network for Quality System Assessment and Certification "EQNET".

Strong Technical Support-Online And Off is very easy to access at Mini-Circuits...3 ways! 1) State-of-the-art online internet support featuring our online catalog, application notes, and the design engineers search engine, YONI. Located on the internet at Mini-Circuits web site <http://www.minicircuits.com>, YONI searches for components based on actual measured performance data...NO simulations and NO averages. It displays performance curves and data of a real unit showing 6 important parameters that describe the component on the screen. Using YONI can save days, weeks, even months of development time by finding a solution in minutes...any time...any place on earth! 2) In-house support from our professionally qualified applications and engineering teams are a phone call or e-mail away. 3) Our "RF/IF Designer's Guide" loaded with informative features and innovative products including the most complete, up-to-date specifications and price information about all Mini-Circuits signal processing components. To receive your copy of this comprehensive guide in the mail at no cost, simply contact Mini-Circuits today.

A Solid Vision Of The Future: Mini-Circuits continuously initiates innovative actions and procedures to obtain higher product reliability and improved technical performance. Advanced automated testing, laser welding, The Partner Program[®], robotics, internal welding, and totally modern facilities combined with consistent new product development, process improvement, ongoing education and training generate some of the innovations that go into our products to support your future needs and give you the competitive edge. At Mini-Circuits, quality is not merely a word...it's a guarantee! Our vision of the future is to continue to be a world preferred supplier of RF, IF, and microwave products. Our strategy for accomplishing this goal is to take actions today to make each and every customer our most important!

Miracle Steel Structures, Inc.

—Over 30 Years of Building Solutions—

◆ Assemble-Yourself Steel Building Systems ◆

COMMERCIAL • INDUSTRIAL • RESIDENTIAL

Manufacturer-Direct — No Distributors

- **Fast, easy assembly** — no heavy equipment needed; goes up in days.
- **Strength and durability** — made to last & withstand severe weather conditions.
- **Product versatility** — assortment of building designs, sizes and colors.

MOELLER

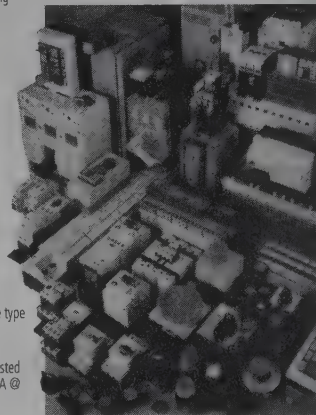

Industrial Electrical/Electronic Controls and Systems

Moeller Electric Corp. manufactures products that meet the requirements of all Major Test Authorities Worldwide; a Mark of Quality that Guarantees Durability and Conformity.

Product Range:

- Circuit Breakers: high interrupting and current limiting
 - Miniature Circuit Breakers
 - Disconnect Switches: fusible and non-fusible
 - Motor Starters: combination and non-combination UL/CSA
 - SELF-PROTECTED Combination Motor Starters
 - Motor protectors
 - Contactors and Relays
 - Programmable Controllers
 - Control Circuit actuating devices: push buttons, selector switches, indicating lights (in 30 mm / 22 mm / 16 mm sizes) and limit switches
 - Machine Light/Signal Towers
 - Rotary Cam Switches: power and control type
 - Motor Control Centers: steel clad and polycarbonate type
 - Industrial Control Panels, UL listed, CSA certified
 - ICA 1000 Control Panel assemblies with UL type tested and listed short circuit withstand ratings up to 42 kA @ 480 VAC
 - Enclosures: steel and polycarbonate type
- IEC Products**
- IEC control panels meeting EN 60204, CE
 - Modan 6000 IEC Switchgear/MCC
 - Modan 2000 IEC Switchboards
 - IEC Busway (Feeder and Plug-in)
 - Control panel busbar systems with plug-in starter adaptors

• SUMMA PROCESSING

featuring **Molectrics Power Kleen 500**

Summa Processing is Molectrics' advanced form of electropolishing. It is an electrochemical process which provides formerly unachievable results on machined parts, castings, forgings, stampings, fabrications, tooling, and raw materials. Molectrics offers unparalleled service in:

- Electropolishing (Brightness)
- Descaling
- Passivation (Corrosion Resistance)
- Surface Refinement (Micro-Reduction)
- Deburring
- Hydrogen Removal (Stress Relief)
- Bacterial Prevention
- Adhesion Improvement
- Salvage Machined Parts

(See adv. page 2724)

DIAMOND FILM

TECHNOLOGIES

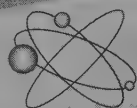

Diamond-Like Carbon Coating (DLC)

Diamond film process is a revolutionary, proprietary process that allows the deposition of a perfectly smooth, ultra hard, amorphous diamond film on almost any substrate.

Diamond-Like Nano-Composite (DLN)

Our DLN process allows us to create an electrically conductive diamond film with high micro-hardness, flexibility and dielectric strength.

- ✓ SUPER TOUGH
- ✓ SUPER SMOOTH
- ✓ PERFECTLY INERT
- ✓ HIGH PRODUCTION RATES

Design, Product Conceptualization, Human Factors, Rapid Prototyping, Design Validation & Vendor Liaison. Certified Product Development Group)

"MDI Provides Multi Talented Product Development Disciplines For the Clients We Serve"

- Product Conceptualization
- Industrial Design
- Mechanical Engineering
- Marketing Analysis
- Computer Aided Design
- Engineering Analysis (FEA, CAE)
- Manufacture Database Support
- Human Factors Analysis
- Rapid Prototyping
- Electrical Engineering

For over 25 years, MDI has achieved a very positive posture in the product development industry. Its multi-disciplined, talented group has an excellent reputation for achieving optimum results in consumer, medical, industrial, and scientific product development.

MDI is a Total Capability Product Development organization, with unique abilities in the area of marketable, cost-effective product solutions with outstanding engineering, aesthetics, and ergonomics, as well as our proprietary development process known as Systems Analysis™.

MDI's Systems Analysis™ is extensive as applied to product development. Developed by MDI as fast, certain means of targeting advanced product solutions predictably and consistently. Systems Analysis involves a highly organized method of developing prioritized program objectives into an all-encompassing Design Document, insuring unprecedented thoroughness in securing product development end results that answer market needs.

Our product development firm's ultimate PERFORMANCE and QUALITY are a direct outgrowth of the PEOPLE we choose to work and grow with us. We strive to collect the very BEST. Visit our facility, talk to our people, and see for yourself.

Morgan Advanced Ceramics / Morgan Matroc

Morgan Matroc • North American Sales Office

582 Monastery Drive • Latrobe, PA 15650

A major force in Morgan Crucible's Technical Ceramics Division, Morgan Matroc manufactures and sells a wide range of products throughout the world.

Continuous investment in state-of-the-art production technology, combined with a commitment to quality, innovation and customer care have enabled Morgan Matroc to set the standards for a new era of worldwide excellence in advanced ceramic technology.

Materials include low to high purity Alumina, Magnesite, Titania, Zirconia, Steatite, Cordierite, Silicon Nitride and Micatherm™.

Morgan Advanced Ceramics / GBC

GBC Materials

580 Monastery Dr • Latrobe, PA 15650

For over 40 years, GBC Materials has been serving the telecommunications, appliance and electronic industries. GBC manufactures Alumina pressed parts in compositions ranging from 85% to 99% purity in high volume, which can be metallized or glass coated. Isostatically pressed Alumina billets are available in unfired, bisque fired rods, bars and blocks in sizes up to 10" in diameter and 24" in length.

GBC Materials also specializes in other materials, which include Steatite, Cerasil™, and MgO.

GBC Materials has the unique dual capability to offer pressed glass, drawn glass tubes, and redrawn glass tubes. This dual capability permits us to supply the ideal product for a specific application such as glass to metal seals for hermetic packages, fuse bodies and others.

Morgan Advanced Ceramics / Wesgo Duramic

Wesgo Duramic

26 Madison Rd. • Fairfield, NJ 07004

Our outstanding design and manufacturing capabilities have been providing solutions to complex application challenges. Meeting today's even tougher technical demands is a partnership between you, the customer and the WESGO applications engineering team. Close customer contact from initial material specifications through final product delivery is standard.

MATERIALS, CAPABILITIES AND SERVICES:

- Aluminas (94 to 99.5%), Aluminum Silicate, MACOR® machinable glass ceramic and Boron Nitride
- Very high purity, consistency and uniformity of product
- Near net shape processing
- High tolerance machining, grinding and polishing
- Low particle generation materials
- Quick response to your ceramic inquiries

See Our Catalog in the Catalog File Section Under Morgan Advanced Ceramics
and on the Internet at <http://www.morganadvancedceramics.com>

Morgan Advanced Ceramics / WESGO CA

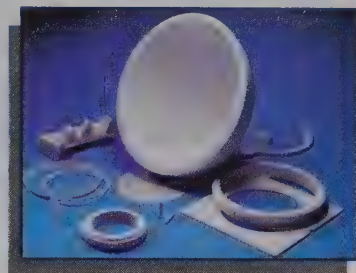

WESGO

Wesgo, Inc.

477 Harbor Blvd. • Belmont, CA 94002

For over 60 years WESGO has been the premium supplier of custom ceramic components for chemical, electrical, mechanical, and vacuum applications. Now from the WESGO headquarters location in California's Silicon Valley and its East Coast location in metropolitan New Jersey, WESGO serves Semiconductor Industry customers around the world.

Parts are normally manufactured from WESGO developed and produced material compositions to customer defined designs.

ISO 9002 Registered

Morgan Advanced Ceramics / Alberox

ALBEROX

Alberox Corp.

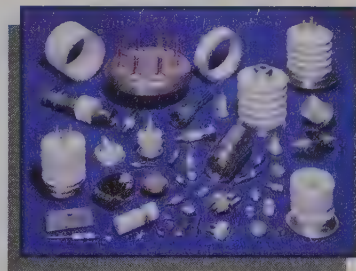

225 Theodore Rice Blvd. • New Bedford, MA 02745

With almost 40 years of experience, Alberox has responded to and solved thousands of the most demanding ceramic to metal sealing applications, from the cold hard vacuum of space to the delicate biological balance of the human body.

If you are faced with difficult sealing applications, consider Alberox your technology supplier/partner.

For more information or to arrange for one of our applications experts to review your needs, give us a call. The solution to your problem may be just a phone call away.

Markets served: Medical Implants and X-Ray, Electrical/Power, Aerospace, Telecommunications, Laser Technology and Analytical/Vacuum.

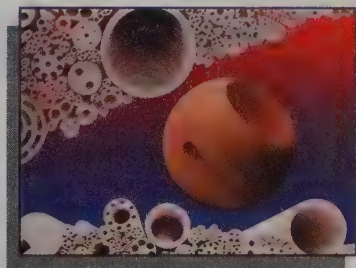

Morgan Advanced Ceramics / Haldenwanger (Bolt)

Bolt Technical Ceramics

P.O.Box 718, 109 Collins Street • Conroe, TX 77305

- Alumina, mullite, silicon carbide and special high temperature oxides.
- Complete facilities for extrusion, injection molding, dry pressing, isostatic pressing, casting and custom machining.
- Rollers, diffusion tubes, thermocouple protection tubes, custom-shaped muffle profile tubes, and helical electrical element support insulators.
- Standard tubes from .020" to 20" diameter, in lengths up to 158". Most items available for immediate delivery. Custom products on request.

Morgan Advanced Ceramics / Wesgo Metals

Wesgo Metals

610 Quarry Road. • San Carlos, CA 94070

Wesgo is a leader in developing custom joining materials for the world's most demanding brazing applications. For nearly three quarters of a century, Wesgo has earned a worldwide reputation for innovation, quality, reliability, and technical support. Today, our noble and non-precious metals and alloys set the standard for the aero-engine, automotive, electronic, general industrial, medical, mine tool, machine tool, semiconductor, and vacuum power tube markets.

Forms:

- ABA™
- Flexibraz®
- Paste
- Preforms
- Ribbon
- Rod
- Stopyt®
- Evaporating Slugs
- Melt-Spun Foils
- Powder
- PSP™
- Rings
- Sheet
- Wire

Common Alloys:

- Copper
- Gapasil®
- Gold-Copper
- Palcusil®
- Palnico®
- Silver
- Cusil®
- Gold
- Nicoro®
- Palladium
- Platinum
- Titanium

ISO 9002 Registered
Certificate No. FM 38174

Over
50 Years of
Creating
World
Class
Designer
Motors

Established in 1936 as Redmond Motors, Inc., Motor Products Owosso has earned a world-wide reputation for quality fractional horsepower motors, on-time deliveries and competitive pricing. The company has maintained a firm hold on the leading edge of motor design and manufacturing technology.

no "off the shelf" products, but specializes in the design, development and manufacture of custom motors for specific end products.

Motor Products Owosso Corporation (MPO) is a vertically-integrated manufacturer of permanent magnet DC motors for a wide range of original equipment applications. MPO produces

All engineering, manufacturing, sales and administrative functions are located at MPO's Owosso, Michigan, headquarters. This comprehensively equipped and capably staffed facility has the capacity to handle production orders ranging from a few to many thousands of motors.

MOTOR PRODUCTS OWOSSO CORP., 201 S. Delaney Rd., Owosso, MI 48867-9100 (5M+) 517-725-5151
(MOTOR PRODUCTS OWOSSO CORP.—Continued next column)

As the name implies, our "specialty" is the design and manufacturing of motors for your special needs.

- Universal Motors
- Shunt Motors
- Permanent Magnet Motors
- Flexible Shaft Motors
- Special Purpose Motors
- Armature and Field Sets

COMPANY PROFILES

(Asset Rating Explanation, see Inside Front Cover)

MOTOROLA

Motorola is a global leader in providing integrated communications solutions and embedded electronic solutions. These include:

- Software-enhanced wireless telephone, two-way radio, messaging and satellite communications products and systems, as well as networking and Internet-access products, for consumers, network operators, and commercial, government and industrial customers.
- Embedded semiconductor solutions for customers in the consumer, networking and computing, transportation, and wireless communications markets.
- Embedded electronic systems for automotive, communications, imaging, manufacturing systems, computer and consumer markets.

Semiconductor Products Sector

As the world's No. 1 producer of embedded processors, the Semiconductor Products Sector (SPS) offers multiple DigitalDNA™ embedded solutions that enable customers in the consumer, networking and computing, transportation and wireless communications markets to create new business opportunities. In addition, SPS provides high-volume and unique discrete, analog and digital semiconductors that are used in virtually every type of electronic equipment.

Products:

Bipolar and MOS Analog ICs
Bipolar and MOS Digital ICs
Bus Interface Devices
Coprocessors
Data Communication ICs
Data Conversion Circuits
Development Tools
Digital Signal Processors
Fast Static Random Access Memory ICs
Fuzzy Logic Devices
ISDN Voice/Data Circuits
Microcomputers and Peripherals
Microcontroller ICs
Microprocessors and Peripherals
Microwave Transistors
Motor Control Circuits
Operational Amplifiers
Pressure and Temperature Sensors
Programmable Logic Devices
RISC Microprocessors
SCSI Devices
SMARTMOS™ Products
Standard Logic ICs
Surface Mount Devices
Telecommunications Circuits
Video Circuits
Voltage Regulator Circuits

Integrated Electronic Systems Sector

The Integrated Electronic Systems Sector (IESS) designs and manufactures a broad range of electronic components, modules and integrated electronic systems and products for automotive, industrial, transportation, navigation, communication, energy systems, consumer and lighting markets.

Products:

Agricultural Vehicle Controls
Anti-lock Braking Systems Controls
Automotive and Industrial Sensors
Automotive Body Electronics
Automotive Power Control Modules
Battery Chargers
Battery Packs
Chassis Controls
Compact PCI Products
Crystal and Quartz Bars
Electronic Ballasts
Embedded Motherboards
Engine Control Modules
Flat Panel Liquid Crystal Displays
Gasoline and Diesel Engine Controls
Global Positioning System Receivers
Ignition Modules
Instrumentation
Keyless Entry Systems
Mac®OS Compatible Personal Computers
Microcomputer Board Level Products
Monolithic Crystal Filters
Oscillators
Passive Backplane PCI/ISA
Power Supplies
Powertrain and Powertrain Systems
Printed Circuit Boards
Piezoelectric Products
Sensors
Transducers
Speakers
Solid State Relays
Surface Acoustic Wave Devices
Technical Computer Systems for OEM Applications
Temperature Compensated Crystal Oscillators
Vehicle Emergency Messaging System
Vehicle Security and Location Systems
VME Products
Voltage Regulators

Mountain States Equipment
offers the Airex Spray Nozzle
Air Washer Modules
and the Airex Portable
Evaporative Unit for
"Sensible Evaporative Cooling."

Compact, efficient and reliable, our
evaporative products have industrial,
food processing and commercial
applications.

**THE
HOTTEST
THING IN
COOLING**

**Airex Modules have many options
available including:**

- ◆ Matching transitions & structural bases
- ◆ Intake hoods or intake louvers
- ◆ Prefiltered/access sections
- ◆ Stainless steel construction

Airex Portable Evaporative Units are:

- ◆ Portable, heavy-duty & extra rugged
- ◆ Useful for spot cooling in hot foundries,
glass plants, breweries, construction
sites & airport hangers
- ◆ Fully self-contained with factory wiring

mountz
the torque tool specialists

Mountz

*Over 30 years of experience dedicated solely
to the manufacturing, marketing and servicing
of high quality torque tools. Mountz is the
nation's premier torque tool supplier.*

**Mountz - The Torque Tool Specialists
High Quality Torque Tools
Responsive Service & Support**

- Torque Analyzers and Calibration Equipment
- Automated Torque Control Systems
- Cam-Over & Click Wrenches
- Torque Screwdrivers
- Power Assembly Tools
- Torque Multipliers
- Torque Accessories

MUELLER

FACILITIES AND CAPABILITIES:

Established since 1940. We have approxi-
mately one million square feet under roof.
Advanced computerized systems for engi-
neering analysis design and the latest
computer-guided, metal-cutting, forming,
and welding equipment. Repair and field-
service capabilities. Recognized for highly
engineered and skillfully crafted stainless
steel processing equipment. Mueller
products are used in more than 100 coun-
tries worldwide.

SUBSIDIARIES:

Mueller International Sales Corporation
Headquarters: Springfield, Missouri.

ACCOMPLISHMENTS:

ISO 9001 Certification

MUELLER PRODUCT LINE:

- ◆ Agitation Systems
- ◆ Brewery Equipment
- ◆ Carbonated Beverage Equipment
- ◆ Chemical, Cosmetic, Textile, and
Pharmaceutical Equipment
- ◆ Dairy Farm & Plant Equipment
- ◆ Food Processing Equipment
- ◆ Heat Transfer Products
- ◆ Meat & Poultry Processing
Equipment
- ◆ Pure-Steam Generators
- ◆ Refrigeration Products
- ◆ Tank Component Products
- ◆ Thermal Storage Systems Products
- ◆ Water Distillation Equipment
- ◆ Water Purification Equipment
- ◆ Wine Tanks

SEE OUR ADS IN THE PRODUCTS & SERVICES VOLUMES UNDER:

- ◆ Brewery Equipment & Supplies
- ◆ Chillers: Liquid
- ◆ Chemical Processing Equipment
- ◆ Dairy Equipment & Supplies
- ◆ Distilling Equipment
- ◆ Food Handling & Processing Equip.
- ◆ Heads: Tank
- ◆ Heat Exchangers
- ◆ Heat Recovery Systems
- ◆ Heat Transfer Equipment
- ◆ Manways
- ◆ Poultry Processing Equipment
- ◆ Reactors: Process
- ◆ Stainless Steel Tanks
- ◆ Steam Generators: Pure
- ◆ Stills: Laboratory, Pharmaceutical,
and Water
- ◆ Tanks: Acid, Chemical
- ◆ Tanks: ASME Specification
- ◆ Tanks: Stainless Steel
- ◆ Tanks: Storage
- ◆ Thermal Storage Systems
- ◆ Vessels: Pressure
- ◆ Water Purification Equipment

OUR COMMITMENT:

To meet and exceed our customers' expectations of value by providing quality equipment and excellent service.

ADVANCED COATINGS FOR THE METAL FABRICATION INDUSTRY

MULTI-ARC and ION BOND® PVD and CVD Coatings Provide Profitable Solutions for Your Business Needs.

ION BOND® coatings increase life, reduce wear and improve performance. Our coatings include:

- Super TiN™ • Titanium CarboNitride (TiCN)
- Titanium Aluminum Nitride (TiAlN) • Chromium Nitride (CrN)
- Zirconium Nitride (ZrN) • Molybdenum Disulfide (MoS₂)
- TETRABOND® (Amorphous Diamond) • BLACKBOND™
- Multi-layer & Custom Coatings

(MULTISORB TECHNOLOGIES, INC.—Continued next page)

MULTISORB

The broadest line of sorbents in the world.

Multisorb Technologies, Inc. - formerly Multiform Desiccants - offers over 1,000 different desiccants, packaged absorbents and adsorbents to protect packaged products from moisture, oxygen, odors, liquid spills and more.

- Standard and custom designs
- 170,000 square foot, state-of-the-art facilities
- ISO 9001 certified quality program
- Representatives throughout the world to meet your needs.

For more details on our complete line see our four page listing in the Thomas Register catalog file section.

 (Mfrs. Of Complete Line Of Blending & Size Reduction & Finishing Equipment. For Batch Blending: Rotary Batch Blender As Well As Horizontal Blenders. Available With Ribbon, Paddle Or Flow Elements. Continuous Blenders Consist Of Gentle Rotary Style Continuous & More Aggressively Hi-Intensity Mixers. In Size Reduction, Equipment Includes A Series Of Screen Classified Cutters, From Mini-Cutters To Model SCC, Hammermills & Rotary Knife Cutters. For Fine Grinding: Pin-Mills & Disk Attrition Mill. Finishing Equipment For Simple Off-Hand Buffing & Polishing To Abrasive Belt Grinding. Offer A Complete Line Of Polishing & Buffing Lathes, Abrasive Belt Lathes, Semi-Automatic High Pressure Workholders, Contact Wheels As Well As Backstands & Guards. For Precision High Volume Aggressive Applications: Rise & Fall Pressure Assist Tables Or Radius Contour Tables. For Special Finishing Needs: Semi-Automatic Finishing Heads, Rotary Indexing Machines & Platen Grinders)

MUNSON Solutions

Rotary Batch Blender
 • Powder/bulk blending

Mina-Pilot/Laboratory Mixer
 • Gentle 4-way mixing action

Horizontal Ribbon Blender
 • Single agitation blender

Hi Intensity Blender
 • High speed continuous blender/processor

Continuous Blender
 • Rotary style with removeable internal baffles

SCC Rotary Cutter
 • Screen classify cutter, rapid throughput, minimum fines

Mini Cutter
 • Heavy duty rotary for low & moderate production rates

Security Destruction System
 • Industrial & government applications

Rotary Knife Cutter
 • Cutter/Cracker, grains, spices & related food products

CX Heavy-Duty Cutter
 • High torque, primary size reduction
 • High density, high tensile bulk materials

Free Laboratory Testing
 Rental And Lease
 Equipment Available

MUR-TEX

FIBERGLASS FABRICATORS

MUR-TEX Fiberglass Tanks are handmade, filament-wound, or resin transfer molded using machine-made fiberglass mat and woven roving. These processes allow production of a consistently uniform and extra strong tank. Each tank is custom designed for its particular application utilizing premium resins without fillers.

The degreed engineering staff at MUR-TEX are ready to utilize in-house CAD workstations to help you design your next project. We have designed everything from Bureau of Land Management specified dual containment sump systems to fish ponds. We will be your full service fiberglass manufacturer.

Since 1962

GLOBAL FACILITIES: NORTH AMERICA • LATIN AMERICA • EUROPE • ASIA

PRODUCTS

NABS distributes diverse industrial components including screws, bolts, nuts, rivets, washers, pins, eyelets, precision turned and machined parts, plastic parts, wire forms, labels, gaskets, shielding, cables and power cords and many other parts to both ANSI and Metric Standards.

QUALITY ASSURANCE

NABS is renowned for its world class quality initiatives — we were the leading global distributor to offer lot and quality control on shipments to all our customers.

INVENTORY LOGISTICS & MANAGEMENT

NABS' inventory logistics and management services can significantly reduce the costs associated with procurement, including inventory control, planning, shipping, receiving, expediting, quality control/ inspection, warehousing, and accounting.

ENGINEERING

NABS has a staff of mechanical engineers with specializations in product design, manufacturing, metallurgy and plastics to assist you with all of your engineering requirements.

QUALITY PERFORMANCE • ISO 9000 • NHBB IS COMMITTED

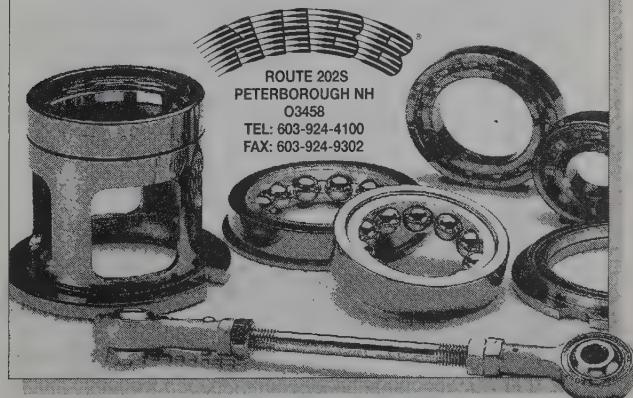

BEARINGS?

WE BELONG AT THE TOP OF YOUR LIST

We've provided expert bearing technology to all major markets for nearly 50 years—for both new product designs and demanding precision applications.

- Custom or standard • Precision rod ends and sphericals • Miniature and instrument ball bearings • Specialty ball bearings up to 12" OD
- Composite components • Machine tool bearings • Cylindrical Roller Bearings.

THE POWER SUPPLIER

Full service engineering support

Design-through-manufacturing expertise

Volume-produced OEM units or low quantity custom designs

Doing the job right for over 65 years has made NWL the largest independent supplier of high power, high voltage power supply components, equipment and systems for commercial, industrial and mil/govt applications. Experienced sales and engineering staffs assist you during the power supply design phase and will provide the lowest cost, best technical fit for your global requirements. Design and production facilities blend design excellence, state-of-the-art technology, in-house sheet metal and magnetics capabilities, and old-fashioned commitment to quality for cost-effective solutions that meet your specific power supply requirements and schedules. Air-cooled to fluid-cooled conversions are also within our capabilities as well as compliance with various global electrical and safety standards. NWL is your one-stop source for the design and delivery of your unique high voltage or high current power supply requirements.

POWER SYSTEMS

- Ratings:** Up to 6,000 KW
Primary Voltages: Up to 20 KV
Secondary Voltages: Up to 300 KV
Output Current: Up to 40 KA
Conversion Technologies: Diode, SCR, IGBT, and Saturable Reactors
Converter Topologies: Bridge, Choppers, SMPS, PWM, Tap Changer, Magnetic
- Low Frequency:** Converters (50/60 Hz)-Up to 6,000 KW
Medium Frequency: Converters (~1 KHz)-Up to 500 KW
High Frequency: Converters (10-20 KHz)-Up to 40 KW
Cooling: Air, Oil, Water
Magnetics Insulation: UL-Listed Dry, Epoxy and Oil-insulated Systems.

MAGNETICS

- Ratings:** Up to 5,000 KVA
Frequency: Up to 200 KHz
Voltage: Up to 125 KV
Current: Up to 50,000 A
Single or Three Phase
Construction: Dry, Oil-Filled, Silicone-Filled, Epoxy Cast, Potted, and Water Cooled
- Inductors:** DC Filter, Swinging, Limiting, Common Mode
Transformers: Isolation, Filament, High Frequency, High Voltage, and Multi-Pulse 3-phase
Reactors: High Q, Current Power Factor Correction Series or Line Reactors, Harmonic Filters, Air Core and DC Link

Power Systems Division and Transformers Division

312 Rising Sun Road, Bordentown, New Jersey 08505

See us on the Web: www.nwl.com or E-mail: nwlinfo@nwl.com

CAPACITORS

- Ratings:** Up to 3,000 KVAR
Frequency: DC-15 MHz
Voltage: From 200-250,000 V
Current: From .001 - 150,000 A
- Capacitance:** 50 Picofarads - 20,000 Microfarads
Construction: Oil-Filled, Water or Air-Cooled, Dry, Plastic and Welded Metal Case

Capacitors Division

WORLDWIDE LEADER ON-SITE EXPERT

**Calgon
Aquazur
Nalco**

Discover The New Nalco...

Merged Strengths

Today, there is a "new Nalco," blended with the capabilities of Calgon and Aquazur and backed by the global infrastructure services of our new parent Suez Lyonnaise des Eaux.* A whole new world of opportunities is ready for you — **Nalco solutions** that enhance your operational efficiencies, best practice technologies, world class service, creative approaches to doing business — and so much more.

*Suez Lyonnaise des Eaux is a world leader in water, energy and waste management services, engineering and infrastructure development. Nalco is proud to be part of the Suez Lyonnaise family.

SUEZ LYONNAISE DES EAUX

NATIONAL BRONZE & METALS INC.

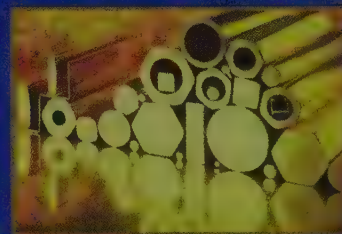

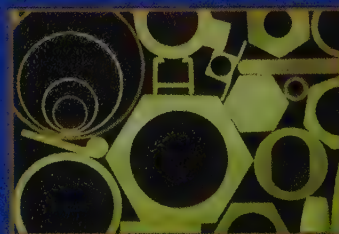

From our centrally located warehouse in Houston, Texas and our modern continuous casting foundry in Cleveland, Ohio, we can offer excellent service to world markets.

Our modern versatile mills produce a comprehensive range of copper and copper alloy rod, bar, wire sections and hollow bar. We also have excellent facilities to produce brass and bronze alloy forgings, both solid and cored, from simple to complex shapes to your specifications.

Our foundry in Cleveland produces a very wide range of bronze alloys for many specialty applications including oil field, aerospace and military. Inquires for made to order alloys and shapes are encouraged.

Should you have requirements for wrought or cast copper base alloys contact NBM as we are specialists. Our success is based upon top quality products backed by prompt, courteous service and most substantial inventories.

Manufacturers & Fabricators — Designers of Electric Heating Elements, for Industrial Heat Treat Applications, including a complete assortment of accessories, including pins, hooks and insulators.

Heating Elements are formed from wire, ribbon and rod, fabricated from nickel chrome alloys and iron aluminum alloys for temperatures up to and including 2400°F. No shape too difficult to form.

We stock all sizes and all grades of wire ribbon and rod for one day delivery if necessary, and operate two shifts since 1966.

Most Heat Element Rack Assemblies are repairable, forwarding this product to our factory saves money. Confident electrical engineering consultants are available to design and build your most complex application.

We are manufacturers of Chain Drive Conveyor Belts, which are used for heat applications and consist of two or more Side Chains, supported by Crossrods, Mesh, Angles, Channels and sometimes Pipe or Tubing which form a skeleton for load support. Our latest design is a fabricated belt of multiple rows of U-links, with 6 ga. Crossrods on 3/4" Centers, fabricated 6" wide, up to 12' width, capable of withstanding 40 pounds per square foot x 3' wide, up to 1200°F. Sprockets, Drive Assemblies and Idler Drum Assemblies available.

Representatives in all major cities. Call today for the one nearest you.

EMERGENCY HEATING ELEMENT SERVICE AVAILABLE (48 HOURS)

SERVING INDUSTRY FOR OVER 90 YEARS

NFM

National Filter Media Corporation

National Filter Media is one of the world's oldest & largest providers of air pollution control & liquid filtration products. We have the largest field staff trained in solving filtration problems.

PRODUCT LINE INCLUDES:

- BELTS FOR BELT PRESSES
- DUPLEX CLOTHS
- FILTER PAPER
- FILTER PRESS CLOTHS
- DISC SECTORS
- PAN FILTER CLOTHS
- DUST BAGS: ALL TYPES, SIZES & SHAPES
- DISK BAGS
- DRUM COVERS
- FILTER CLOTH (ROLL GOODS)
- PRESSURE FILTER CLOTHS
- FILTER BELTS
- CUSTOM BAG MFG.

NEW VACUUM FILTERS:

- DISK
- BELT PRESSES
- CONSULTING & ENGINEERING
- HORIZONTAL
- DRUM
- VACUUM SYSTEMS

HARDWARE & SERVICE ITEMS:

- VACUUM FILTER PARTS
- WIRE CAGES
- VENTURIS, CUPS
- BAG RETAINERS
- CARTRIDGES
- SCRAPER BLADES
- PRESSURE FILTER LEAVES, NEW OR REBUILD
- VACUUM FILTER TECH. ASSISTANCE & REBUILDING
- FILTER PLATES & FRAMES
- RECESSED CHAMBER PLATES
- ON-SITE TECH SUPPORT
- DUST COLLECTOR PARTS
- LEAK DETECTION
- POWDER (GLO-RAY)
- PLEATED BAGS

VITRO-LUBE

National Process Industries, Inc. (NPI) has only one primary goal; to provide the best possible product to our customers. To do this, we concentrate our efforts on only a limited number of high quality bonded solid film lubricants. This allows us to maintain a very high level of quality control, thus assuring consistent performance with each of the products we sell. The purpose of this brochure is to acquaint the user with the unique characteristics of bonded solid film lubricants with particular emphasis on the products that NPI presently markets.

NATIONAL RIVET

Proven Quality Riveting Products

Rivets:

- Solid, semi-tubular, and specialized rivet configurations
- .028" - .375" diameter and .044" - 4" length
- Extensive wire inventory - special materials encouraged
- In-house plating/heating treating to eliminate production delays
- Self piercing - cost saving method assembly

Riveting Machines

- Over 20 standard models
- Electro-mechanical and Pneumatic Operation
- MaxSet anvils for longer life
- Specialized riveting machines to solve your unique assembly requirements

The Custom Engineering Department at National Rivet is prepared to solve your unique fastening challenges!

*The High Quality System
That Makes Connections Work*

For more than 55 years NICOPRESS SLEEVES have been used with aircraft control cable, wire rope, and fiber rope. NICOPRESS OVAL SLEEVES are used to eye-splice, and NICOPRESS STOP SLEEVES are used to terminate cable and rope.

For convenient and proper compression of Nicopress Sleeves both in the field and in the shop, many types of Nicopress Tools are available. They include:

- Hand Tools
- Bench Tools
- Manual Hydraulic Tools
- Power Hydraulic Tools

MACHINING CAPABILITIES

- Tornos Bechler Boca 2000
- Tornos Bechler Multi Spindles SAS-16
- Brown & Sharpe Single Spindle Automatics
- Davenport Multiple Spindle Automatics
- Miyano CNC Lathes

CNC Vertical Machining Centers**COMPLETE SECONDARY**

- Milling • Drilling
- Tapping • Bending
- Slotting • Broaching
- Capacity 1/16" to 15/8"
- Full Customer Service
- Kanban and JIT programs available
- Full Engineering & Design Service
- Brass, Steel, Alum, Stainless, Others
- Committed to Our Customer's Success.

**NECOA
INCORPORATED**

NITOKU ENGINEERING GROUP

NECOA, Incorporated was founded in 1987 to establish a sales and manufacturing operation in America for the Nittoku Engineering Group, the world's largest supplier of coil winding and finishing machinery. From its inception, NECOA's philosophy has been to integrate the finest in coil winding equipment and automation with an experienced and recognized US industry engineering and management team.

NECOA offers a full range of services resulting in a total commitment to meeting customer requirements. Our engineering, manufacturing, field service and spare parts departments team together to deliver the best investment value today, while anticipating tomorrow's needs. Our obligation to you does not end with delivery. We provide extended support to ensure you continuing success.

ONLY NELSON OFFERS SO MUCH HEAT TRACING PROTECTION.

PRODUCTS

Limitrace® Self-Regulating Cable
Nexel® Mineral Insulated Cable
Nelcon® Constant Wattage Cable
Flexible Heating Panels
Control, Monitoring & Distribution
Electrically Traced Tubing Bundles
Design/Engineering Services

INDUSTRIAL APPLICATIONS

Freeze Protection Systems
Process Heating Systems

COMMERCIAL APPLICATIONS

Snow Melting & De-Icing Systems
Hot Water Maintenance Systems
Comfort/Slab Heating Systems

J.D. NEUHAUS LIFTING EQUIPMENT SINCE 1745

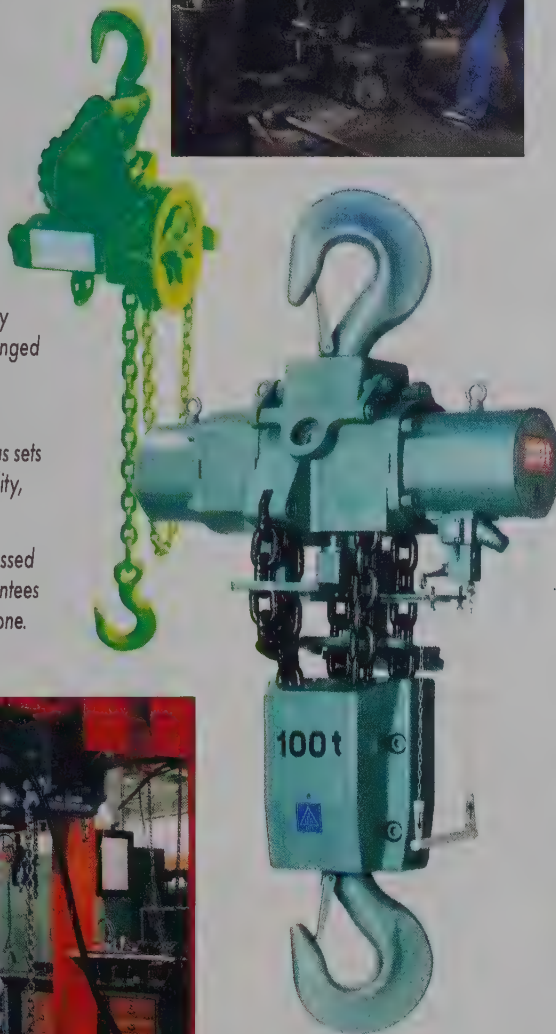

From Tradition to Progression

Johann Diedrich Neuhaus founded the company 250 years ago, and today it is still operated by the Neuhaus family.

The kind of people, the spirit, and the quality of products has not changed. What has changed is the technology of manufacturing and our quality assurance.

Today—after six generations—J.D. Neuhaus sets the standard for quality, innovation, durability, efficiency, and dependability.

The use of the best quality materials—processed and tested in our high-tech facilities—guarantees a full line of hoisting equipment second to none.

NEMB

NEW ENGLAND MINIATURE BALL

THE MINIATURE BALL SOURCE

New England Miniature Ball was founded in 1965 with the sole premise of manufacturing quality precision miniature steel balls. However since our inception, we have vastly increased our product line to include balls manufactured from almost every machinable material in sizes from .010" to 1/8". We are committed to quality; in fact we have invested substantial sums of money in the latest S.P.C. equipment to provide the customer with the best possible product for his application. NEMB has an extensive inventory of non-standard diameters from various materials; and if required, we have the capability of shipping **Rush Orders** within **24 Hours**. NEMB does have "job shop" capabilities to provide customers with minimal lead times for special non-stock requirements. Meeting delivery schedules and supplying a quality product are of the utmost importance to us. Please feel free to contact our Sales and Engineering Department for further information.

CERTIFIED TO ISO 9002

NEMB's Quality Assurance Department
is certified to MIL-I-45208
